

Classify That!

Lesson Title: Scientific Groupings

Page 1 of 1

Name: _____

Directions: Illustrate the relationship between the following terms by placing them in the correct circles of the concept map: vertebrates, animals, genus, plants, and species. Also include the five vertebrates you learned about at the Classifying Critters website.

Classifying Critters: <http://www.hhmi.org/coolscience/forkids/critters/critters.html>
